

SRISTI PAUL

DATA ANALYST

☎ +91-6289089308 ✉ sristipaul6289@gmail.com 🔗 [linkedin.com/in/sristi-paul](https://www.linkedin.com/in/sristi-paul)

SUMMARY

MCA graduate pursuing a Data Analyst role with hands-on experience in Excel, Power BI, SQL, Python, and Pandas. Skilled in data cleaning, validation, analysis, visualization, dashboard development, and reporting. Experienced in working with large datasets and using AI-assisted tools to improve analytical workflows and solve data-driven problems.

SKILLS

Data Analytics: Data Analysis, Data Cleaning, Data Validation, Data Mining, Data Visualization, Data Modeling

Programming & Query Languages: Python, SQL, JavaScript

Python Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn

Business Intelligence: Advanced Excel, Power BI, Power Query, PivotTables, PivotCharts, Dashboard Development, Reporting

Databases & Tools: MySQL, Git, GitHub, Google Colab, Jupyter Notebook

AI & Other: AI-Assisted Analysis, Analytical Thinking, Problem Solving, Process Improvement

PROFESSIONAL EXPERIENCE

Data Science

2023

- Applied K-Means clustering to segment customers based on shared characteristics and identify distinct customer groups.
- Conducted EDA and cluster analysis using Python, Pandas, Scikit-Learn, and Matplotlib to identify patterns across customer segments.

Artificial Intelligence & Machine Learning

2025

- Engineered an Intelligent OCR System for handwritten word recognition using machine learning and image processing.
- Applied preprocessing, feature extraction, and classification in Python to improve handwritten text recognition.

Full Stack Development – MERN

2026

- Created a Smart E-Learning Platform with AI Tutor using the MERN Stack and AWS.
- Implemented REST APIs, database management, and frontend-backend integration for the platform.

PROJECTS

E-Commerce Sales & Profit Analysis Dashboard | *Excel, Power Query, PivotTables, PivotCharts*

2026

- Analyzed e-commerce sales, profit, customers, products, discounts, shipping methods, and regional performance using Excel-based data analysis.
- Cleaned and structured transaction data with Power Query; created KPI calculations, PivotTables, PivotCharts, and interactive Slicers to identify revenue and profitability trends.

COVID-19 Data Analysis | *SQL, Python, Pandas, Excel, Power BI*

2026

- Analyzed **429K+ COVID-19 records** across 255 locations to identify trends and patterns in cases, deaths, and fatality rates.
- Cleaned and validated large datasets using SQL, Python, Pandas, and Excel; developed a Power BI dashboard for reporting and data visualization.

Movie Recommendation System | *Python, Pandas, Scikit-Learn, NLTK, Streamlit*

2023

- Implemented a content-based recommendation system using NLP, text feature extraction, and cosine similarity.
- Created an interactive Streamlit application that generates recommendations based on selected movie titles.

AI Desktop Voice Assistant | *Python, SpeechRecognition, pyttsx3, OpenCV*

2024

- Engineered a voice-controlled desktop assistant in Python to automate common tasks through speech commands.
- Integrated web search, application launching, email handling, and information retrieval.

EDUCATION

Master of Computer Applications	2024 – Present
<i>Netaji Subhash Engineering College, Kolkata, West Bengal</i>	
Bachelor of Computer Applications	2021 – 2024
<i>B.P. Poddar Institute of Management & Technology, Kolkata, West Bengal</i>	<i>CGPA: 8.11</i>
AISSCE – Class XII (Commerce with Mathematics)	2021
<i>Shri Shikshayatan School, Kolkata, West Bengal</i>	<i>81.8%</i>
AISSE – Class X	2019
<i>Shri Shikshayatan School, Kolkata, West Bengal</i>	<i>82.6%</i>

ACHIEVEMENTS & CERTIFICATIONS

- **NPTEL Elite – Data Analytics with Python** | IIT Roorkee | 2026
- **SQL Completion Certificate** | Udemy | 2026
- **MERN Stack Development Training** | JavaScript, React.js, Node.js, Express.js, MongoDB | 2026
- **Artificial Intelligence & Machine Learning Internship & Project** | ESC | 2025
- **Data Science – 50 Hours** | Webel Fujisoft Vara Centre of Excellence in Industry 4.0 | 2023
