

SRISTI PAUL

ASPIRING DATA ANALYST | SQL | PYTHON | EXCEL | POWER BI

sristipaul6289@gmail.com | 6289089308 | Howrah, West Bengal

PROFESSIONAL SUMMARY

MCA graduate with a strong foundation in Data Analytics, Python, SQL, Excel, Power BI, and Statistics. Skilled in data cleaning, exploratory data analysis (EDA), data visualization, and extracting actionable insights from data. Hands-on experience working with real-world datasets using SQL, Pandas, Excel, and Power BI, including a comprehensive COVID-19 Data Analysis project. Also experienced in Machine Learning, including K-Means clustering and NLP-based applications. Strong analytical and problem-solving skills with a focus on applying data-driven approaches to real-world problems.

TECHNICAL SKILLS

Data Analytics: Data Analysis, Data Cleaning, Data Preprocessing, EDA, Data Visualization, Statistics

Programming & Query Languages: Python, SQL

Python Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn, NLTK

Business Intelligence: Excel, Power BI, Power Query

Machine Learning: K-Means Clustering, NLP, Cosine Similarity, CNN, BiLSTM

Databases & Tools: MySQL, Git, GitHub, Google Colab, Jupyter Notebook, Streamlit

Other: Data Structures & Algorithms, Problem Solving, Analytical Thinking

PROJECTS

COVID-19 Data Analysis | SQL | Python | Pandas | Excel | Power BI

- Analyzed 429K+ COVID-19 records across 255 locations to identify trends in cases, deaths, and fatality rates.
- Created an interactive Power BI dashboard with KPIs, country rankings, time-series trends, continental comparisons, and filters.

Customer Segmentation using K-Means Clustering | Python | Pandas | Scikit-Learn | Matplotlib

- Segmented customers using K-Means clustering to identify distinct customer groups.
- Applied EDA and cluster analysis to derive insights for targeted marketing strategies.

Movie Recommendation System | Python | Pandas | Scikit-Learn | NLTK | Streamlit

- Created a content-based recommendation system using NLP and cosine similarity.
- Designed an interactive Streamlit application for personalized movie recommendations.

Handwritten Word Recognition System | Python | TensorFlow/Keras | CNN | BiLSTM | OpenCV

- Implemented a deep learning model for handwritten word recognition using CNN and BiLSTM.
- Integrated CTC Loss with CNN-BiLSTM architecture for text recognition.

AI Desktop Voice Assistant | Python | SpeechRecognition | pyttsx3 | OpenCV

- Created a voice-controlled desktop assistant for task automation.
- Enabled web search, application launching, email handling, and information retrieval.

EDUCATION

Master of Computer Applications |

Netaji Subhash Engineering College, Kolkata, West Bengal | 2024 – PRESENT

Bachelor of Computer Applications | CGPA: 8.11

B.P. Poddar Institute of Management & Technology, Kolkata, West Bengal | 2021 – 2024

AISSCE – Class XII (Commerce with Mathematics) | 81.8%

Shri Shikshayatan School, Kolkata | 2021

AISSE – Class X | 82.6%

Shri Shikshayatan School, Kolkata | 2019

CERTIFICATIONS & TRAINING

- NPTEL Elite – Data Analytics with Python | IIT Roorkee | 2026
- SQL Completion Certificate | Udemy | 2026
- MERN Stack Development Training | JavaScript, React.js, Node.js, Express.js, MongoDB | 2026
- Technical Workshop on Cyber Security & Ethical Hacking | ISOEH | 2026
- Artificial Intelligence & Machine Learning Internship & Project | ESC | 2025
- Python 3.4.3 Certification | Spoken Tutorial Project, IIT Bombay | 2025
- Data Science – 50 Hours | Webel Fujisoft Vara Centre of Excellence in Industry 4.0 | 2023
